EXPERIENCE

Xentra Infotech Solutions, Inc.

Decisions Intern | OJT

Malolos, Bulacan

Feb 2026 – Apr 2026

- Developed workflow automation solutions using the Decisions platform and integrated REST APIs with external systems to automate business processes across multiple applications.
- Tested and validated REST API endpoints using Postman, analyzed JSON payloads, and troubleshoot integration issues to ensure reliable workflow execution.

CICT Office, Bulacan State University (BulSU)

Office Intern | Summer job

Malolos, Bulacan

Jul 2025 – Aug 2025

- Managed administrative operations by encoding data, processing documents, and maintaining organized records to support daily office functions. Coordinated document filing ensuring accurate record management and efficient office workflows.

PROJECTS

CampusCash

React, TypeScript, Node.js, Express.js, PostgreSQL, JWT

- Created a personal budgeting platform that helps students monitor expenses, manage category budgets, track savings goals, and calculate a daily safe-to-spend allowance based on remaining monthly funds.
- Developed interactive financial dashboards featuring spending analytics, category-based visualizations, budget recommendations derived from historical spending patterns, transaction search/filtering, and CSV export for expense records.

PantryPal

Next.js, React, TypeScript, Vercel AI SDK, Upstash Redis, NextAuth.js, Prisma, PostgreSQL

- Built an AI-powered recipe generator that transforms available ingredients into complete recipes with cooking instructions, preparation details, and personalized recommendations streamed in real time.
- Designed a personalized recipe management experience with searchable saved recipes, detailed recipe views, PDF export, and secure user authentication with request rate limiting to improve reliability.

Whisper

Next.js, React, TypeScript, Vercel AI SDK, NextAuth.js, Prisma, PostgreSQL

- Developed an AI-powered mental health companion featuring real-time conversations, daily mood tracking, guided breathing exercises, and curated mental health resources to promote user well-being.
- Implemented crisis detection that identifies high-risk messages and immediately provides Philippines-specific emergency resources, while supporting multi-session chat history, PDF conversation export, and personalized user experiences.
